

AUSTRALASIAN GROUNDWATER CONFERENCE

GROUNDWATER FUTURES SCIENCE TO PRACTICE
11-13TH JULY 2017 UNSW, SYDNEY

AGC2017 Speakers:

Dr Mark Cuthbert

**Senior Research Associate,
UCL Department of Geography**

Dr Mark Cuthbert is a Groundwater Scientist currently researching coupled hydrological-climate process dynamics in order to understand & quantify groundwater sustainability, particularly in drylands. Originally trained as an Earth Scientist, he has published over 40 papers reflecting diverse research interests and also has a breadth of experience working in the environmental consultancy & international development sectors.

Between 2012-2015 he held a Marie Curie Research Fellowship jointly at the University of Birmingham, UK and at UNSW Australia's Connected Waters Initiative Research Centre. He is currently a Senior Research Associate at University College London, UK, and a Visiting Research Fellow at UNSW Australia.

Mark was a Co-Founder of the International Association of Hydrogeologists' Early Career Hydrogeologists' Network (IAH-ECHN) and currently serves as an Editorial Board member for Scientific Reports (Nature Publishing Group).
